RESEARCH INTERESTS

I specialize in the research areas of **Human-Computer Interaction (HCI)** and **usable privacy and security**. I direct the Amyoli Internet Research Laboratory or AIR lab for short. My research aims to create an equitable Internet, one that is *trustworthy* and *inclusive* of all users; I do so by determining how to cater to differences in users' infrastructure, preferences, and abilities as well as finding ways to create a trustworthy cyberspace to prevent online malfeasance.
